Subject: RE: correction to Genereal Notice letter Site address

Dear Maria:

Thank you for taking the time to discuss this matter with me and the City of Kokomo. The City confirms that it wishes to negotiate a resolution of its potential responsibility in connection with 1114 S. Dixon Road. Assuming sufficient participation by other potentially responsible parties and that an agreement can be reached regarding the terms of an Administrative Consent Order, the City is willing to participate in the performance or financing of the activities described in the General Notice Letter. However, until we are advised of the amounts of both past and estimated future costs, the City is unable to make an informed decision regarding entry into an Administrative Consent Order. Further, the City intends to approach Mr. Graves to discuss coordinating our efforts and would like to have this matter resolved before entering into any Administrative Consent Order.

Please let me know whether you have any questions.

Thank you.

Subject: correction to Genereal Notice letter Site address

Thank you for checking.

I believe the attached correction/errata correspondence is being mailed out today.

Maria,

When does the U.S. EPA intend to mail the revised General Notice of Liability letter? I have not yet received a copy.

Please advise.

Thank you.

CONFIDENTIAL SETTLEMENT DISCUSSIONS

As a follow up to our discussions on 3/26/14, I am forwarding a dump list IDEM provided, indicating that residue from the Kokomo Teepee Burner went to the Graves Dump; and the Dixon Road Site Assessment report, which shows contamination at the Dixon Road Site, including PCB aroclors, essentially the same as those found at the adjacent Kokomo Dump Site. I am forwarding the documents we obtained on the 1958 case by separate Email.

Maria Gonzalez
